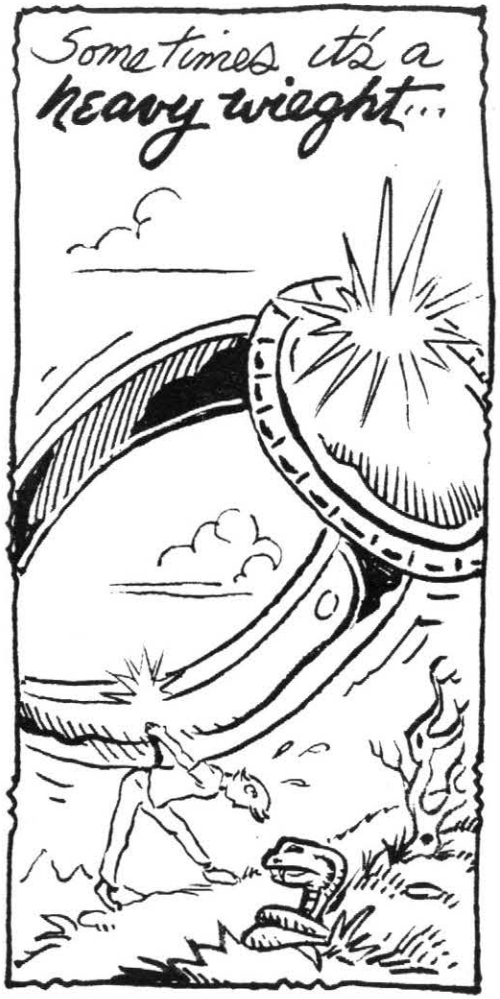
Mr. Verlin's Comix "The Ring"

I've had this ring since I was a child. (It was one of those pre-arranged marriages, I guesse...) It's taken all my life to grow into it.

Many have tried to steal it from me for the things it shows to the wearer.

The Ring produces such Wild Visions...! Things as they would be, could be, should be... and as they NEVER COULD BE in a million years!!

The Power's Addictive...



I've thot of hocking it so many times but it's priceless... and so has no price.

ZONG
So I set up this side-show tent... I don't make much... but occasionally some one SEES something in the rung... something that seems to do some good... to make this obcession all worth while...
Would You Like a Look?!?

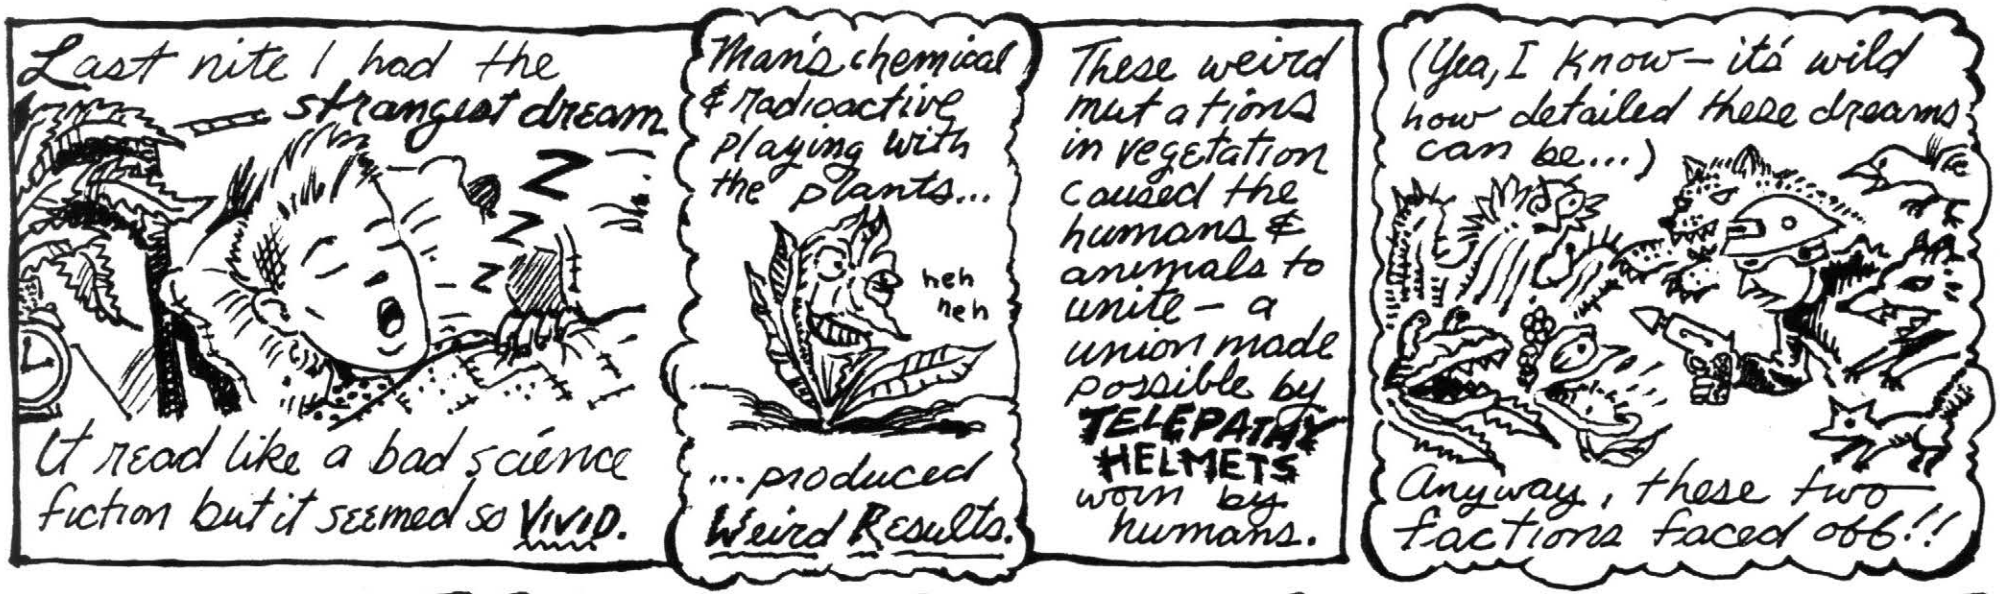
"ECO-MARE"



Last nite I had the strangest dream.
Z
Z
Z
It read like a bad science fiction but it seemed so VIVID.
Man's chemical & radioactive playing with the plants...
heh heh
...produced Weird Results.
These weird mutations in vegetation caused the humans & animals to unite - a union made possible by TELEPATHY HELMETS worn by humans.
(Yea, I know - it's wild how detailed these dreams can be...)
Anyway, these two factions faced off!!
And an Apocolyptic Battle ensued!!!!
Within a short amount of time the planet was a BARREN WASTE!
...when I awoke...
LATER THAN I THINK
...I thot I saw my fern looking at me STRANGELY!

THINK ECOLOGY!
